

# **RESIST OR DIE!**

## ***The World Can't Wait - Drive Out the Bush Regime!***

Black bodies floating down flooded streets... and a Louisiana congressman says, "we finally cleaned up public housing in New Orleans. We couldn't do it, but God did."

In Nazi Germany Jews were murdered in gigantic gas chambers and the black smoke rising over towns was from the burning of their bodies. Today students of history always wonder, "why didn't anybody do anything to stop this?"

The Nazi's set out to conquer the world. The Bush regime has declared their right to invade any country, torture and crush the people and impose their will.

Now is our chance to stop unimaginable horrors before it is too late.

High school students are being threatened with suspension and tickets if you walk out of school on November 2<sup>nd</sup>. The school administrators think it's fine to open the doors to military recruiters who trick students into becoming killers and torturers but lock the doors when you try to get out to protest. Think about the future the Bush regime has in store for you if we don't resist and then compare that to these petty threats.

When your relatives are being shot and killed by racist vigilantes, when you are drafted into the military and forced to shoot and kill children at checkpoints in Iraq, when you try to go to college and get an education and the teachers are too scared to teach the truth because critical thinking and dissent have been outlawed on campuses – are you going to be thinking "good thing I didn't walk out of school," "I'm glad I didn't get suspended," "At least I didn't get a ticket." No. You're going to think, "Why didn't I do anything to stop this?"

When students from your school walk out on November 2<sup>nd</sup> you will be part of creating a movement of resistance that can change the direction of society and bring into being a future you can grow in. If they try to come after you, we will fight that too.

***SO THE LESSON IS:  
F\*CK THEIR THREATS,  
WE'RE CHANGING THE WORLD!***
