

RESIST OR DIE! NO SCHOOL WED. NOV. 2ND!
The World Can't Wait- Drive Out the Bush Regime!

What kind of world do you want to live in?
What kind of future is worth fighting for?

We are heading toward a future where torture and war for greed and power is ongoing and normal. Where Black people are systematically wiped out by a government that sees them all as criminals. Where immigrants are murdered by racist vigilantes. Where people waving bibles are killing gays and lesbians. Where young women bleed to death from illegal abortions. And where all this is PROMOTED as God's will by the Bush regime & its cronies.

Highschool students have a right to speak about the future. If you resist, if you challenge the way things are, if you refuse to go along with the rules about how you are supposed to accept all this - you will inspire many thousands more who will join you.

November 2nd has to be the beginning of the end of the Bush regime. It will take massive resistance to force this regime to get out - highschool walkouts involving hundreds of thousands of students around the country, college campuses shutting down, people leaving work and pouring into the streets.

If we do this, in fact, ONLY if we do this - ONLY if we take history into our hands - we have a chance to change what the future looks like. As a movement of resistance grows, we will start to see our own strength, we will start to see hundreds of thousands and then millions of people politically confronting the government and refusing to be ruled in the same way. We will start to see that instead of everybody being angry and scared and just going along - people will be fighting for what's right and figuring out together what the future SHOULD look like and how we are going to get to a world we want to live in.

You know what kind of world you want to live in. You know what is right and what cannot be tolerated. It is your time to make history. The administration and some teachers will try to stop you. Other teachers will support you. Fight and argue for what you know is right and don't be intimidated by school authorities who try to get you to accept what is wrong.

The future is unwritten. Which one we get is up to us.

No more pictures like this ever!
